I love the game. I feel the game. I am futbol! I have developed my own playing system based on a combination of two very strong schools of the game: the Ajax system and the Arthur Antunes Coimbra “Zico” system. I am always learning new facets about the game.

I have coached for a total of 20 years, the last ten dedicated to Youth teams because of my son and to this date, I approach the beautiful game with the same intensity and passion as the first day.
