

Rebels Soccer Club and Jr Academy Parents,

We are excited to announce the Jr Academy's return to training on our local fields. Recently, Governor Newsom, the Board of Supervisors for the County of San Diego, the City of Chula Vista, and Cal South gave conditional approval for the return of youth sports. The Rebels Soccer Club has been recognized by local government officials as the leading youth organization for presenting responsible protocols commensurate with the Center for Disease Control and Prevention (CDC), Cal South, and County of San Diego Day Camp guidelines. Our diligence, open communication with stakeholders, and comprehensive preparation has allowed us to move forward with the "Return to Play" model.

We will start back to our Jr Academy session **starting Monday, August 17th, 2020**. In order to ensure the safety and health of our players, parents, coaches and staff the Rebels Soccer club has implemented safety protocols that must be followed prior to, during and at the conclusion of each training session. Moreover, before a child can participate in any Rebels coordinated training, each parent must sign 4 waivers to adhere to county and club mandates that must be submitted on the first day of practice. **NO WAIVERS, NO PRACTICE.**

It is imperative that every parent review the attached safety protocols. Parents, please discuss these protocols with your child emphasizing the importance of safety while on the field of play. Some of the more significant concerns that you need to be aware of are as follows:

1. Parents must take their child's temperature at home prior to attending practice.
2. Car pools are not allowed.
3. Each child must bring their own ball, water, hand sanitizer, and towel to practice. No one can share any aforementioned items. Personal items shall be wiped and sanitized before and after practice. Coaches will screen players with CDC approved questions. Parents must escort their child to assigned training area and be present during screening.
4. Each child must practice 6 feet social distancing and wear a mask upon entering and exiting practice field. They can only remove mask during training session.
5. Parents must also practice 6 feet social distancing and wear mask at all times unless you remain in your vehicle. Parents can go onto the field only to escort their child to their assigned training area and immediately afterwards go back to their car to watch OR take a chair and sit 6ft away from other spectators in the designated area. Following training, you will have 10-15 minutes maximum to leave the field so that other teams that are waiting can approach the field. Parents are prohibited from sitting on city bleachers or benches.
6. A Club Field Marshal will be on-site to ensure safety protocols are followed. Please

cooperate and follow directions conveyed by the field marshal. If protocols are not followed or ignored, parents may be instructed to leave the premises.

The aforementioned protocols are only a highlight of the guidelines established by the Rebels Soccer Club. It does not replace your responsibility from reviewing the comprehensive list of protocols in the attachment.

For our "Return to Play" to succeed and progress, it must be a concerted, cooperative effort by our entire membership. We must follow direction, abide by all guidelines, and maintain vigilance. Parents, it has been an extremely difficult situation that no one expected given this pandemic crisis facing humanity. However, we are confident we will persevere and eventually, in our small world of soccer, get back to enjoying our children playing games again.

Respectfully,

Ryan Marquez
